

A CASE Seminar:

Caring for your Eyes

Do you suffer from myopia, or any other form of common vision problems? What can you do to manage this condition?

If you are choosing between using spectacles or contact lenses, what are the benefits or disadvantages of each?

Or you may have considered procedures such as LASIK to permanently correct your vision. Should you go ahead with such a procedure?

Join us at this free seminar to find out all these and more!

Learn about:

1. "Common vision problems – prevention and management"
Singapore National Eye Centre
2. "Using spectacles and contact lenses: Issues for consideration"
Singapore Optometric Association
3. "The Consumer Protection (Fair Trading) Act – How does it protect me?"
CASE
4. "Lasik: Is it for me?"
SingLasik/Singapore National Eye Centre
