

## **CASE signs Memorandum of Understanding with Korea Food Safety Information Center**

The Consumers Association of Singapore (CASE) signs a Memorandum of Understanding (MOU) with Korea Food Safety Information Center (KFSI) to share information on food safety.

The objective of this collaboration is to ensure safe food supply to consumers by providing crucial food safety information to the public, through information and education service by both parties.

With the signing of this MOU, an information-sharing system will be put in place so that both parties can exchange information on food-related recalls, research information on food trend and tendency, and information on the relevant laws and regulations of food safety standards. CASE will assist KFSI to obtain the necessary information from the various Singapore government statutory and government authorities on matters relating to food safety information, laws and regulations.
