Introduction

The Consumers Association of Singapore (CASE) and Singapore Jewellers Association (SJA) had developed an accreditation scheme for the jewellery industry.

Building upon CaseTrust requirements which promote fair-trading and good business practices, CaseTrust – SJA Accreditation Scheme for Jewellery Businesses has been developed with specific criteria tailored for the Jewellery industry, and to assist SJA members in uplifting their professionalism and business image. With their invaluable trade expertise and experiences, CaseTrust was able to identify best practices in their business in which to add value to their customers and benefit the industry as a whole.

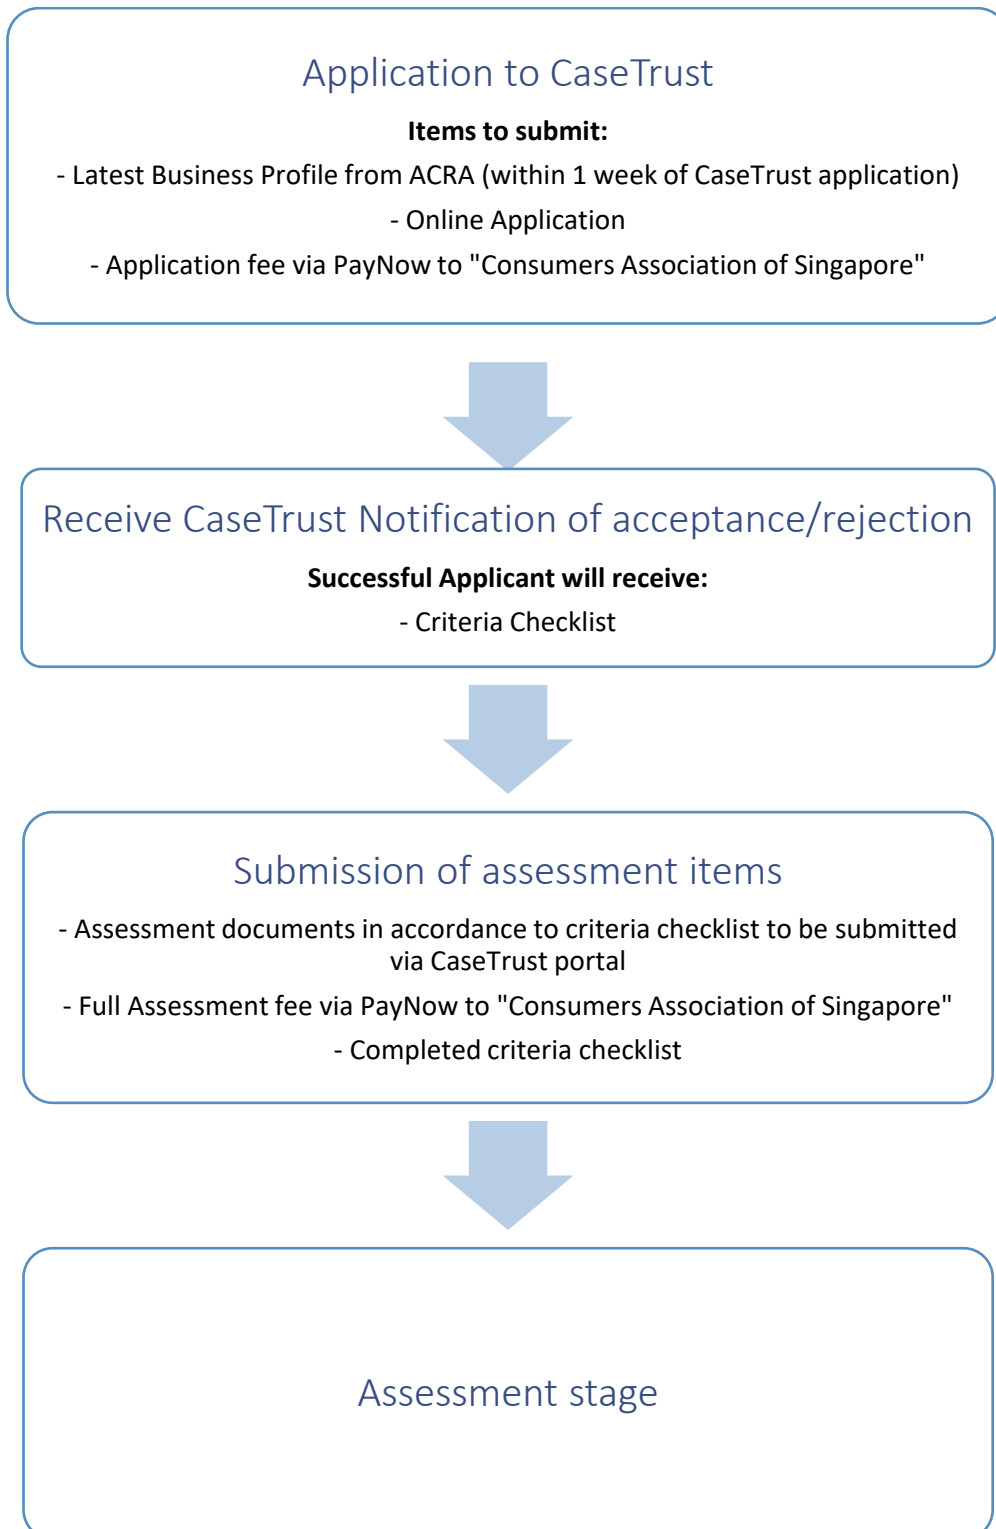

Under CaseTrust – SJA Accreditation Scheme, the businesses are audited under a set of stringent and comprehensive criteria, covering the aspects of proper store policies, ethical advertising and proper dispute resolution procedures, staff capabilities as well as training.

Businesses who qualify to obtain the CaseTrust-SJA accreditation will be able to display the CaseTrust logo on their shop fronts and marketing materials as an outward sign of their commitment to fair trading. For consumers, this is assurance that these businesses have good sales/after-sales service, business integrity, well-trained staff and well-maintained retail facilities.

Some of the unique points for this scheme (applicable for 916 and 999 gold)

- Gold jewellery is certified by any certification body accredited by the Singapore Accreditation Council (SAC) or SAC Mutual Recognition Arrangement partners.
- Policy to weigh the gold jewellery without any price tag and/or label if requested by the customer after confirmation of sales. In the event that the tag/label was permanently attached and cannot be removed, the weight of a similar tag/label would be taken in the presence of the customer and deducted from the item's total weight.
- Policy of not charging for gold loss due to vaporisation during manufacturing process and/or customary levy by craftsmen in the process of manufacturing.
- Details such as retail gold price with labour charges, nett gold weight and gold fineness are shown in the receipt.

CaseTrust Application Stages

Note: The application will be considered Null & Void if complete set of required assessment items are not submitted within 6 months from date of application.

CaseTrust Assessment Stages

Note: From the date applicant enters into assessment stage through submission of all required assessment items, it will take around 3-4 months to complete the assessment in order for business to be accredited.
